

Phases of Matter Wheel

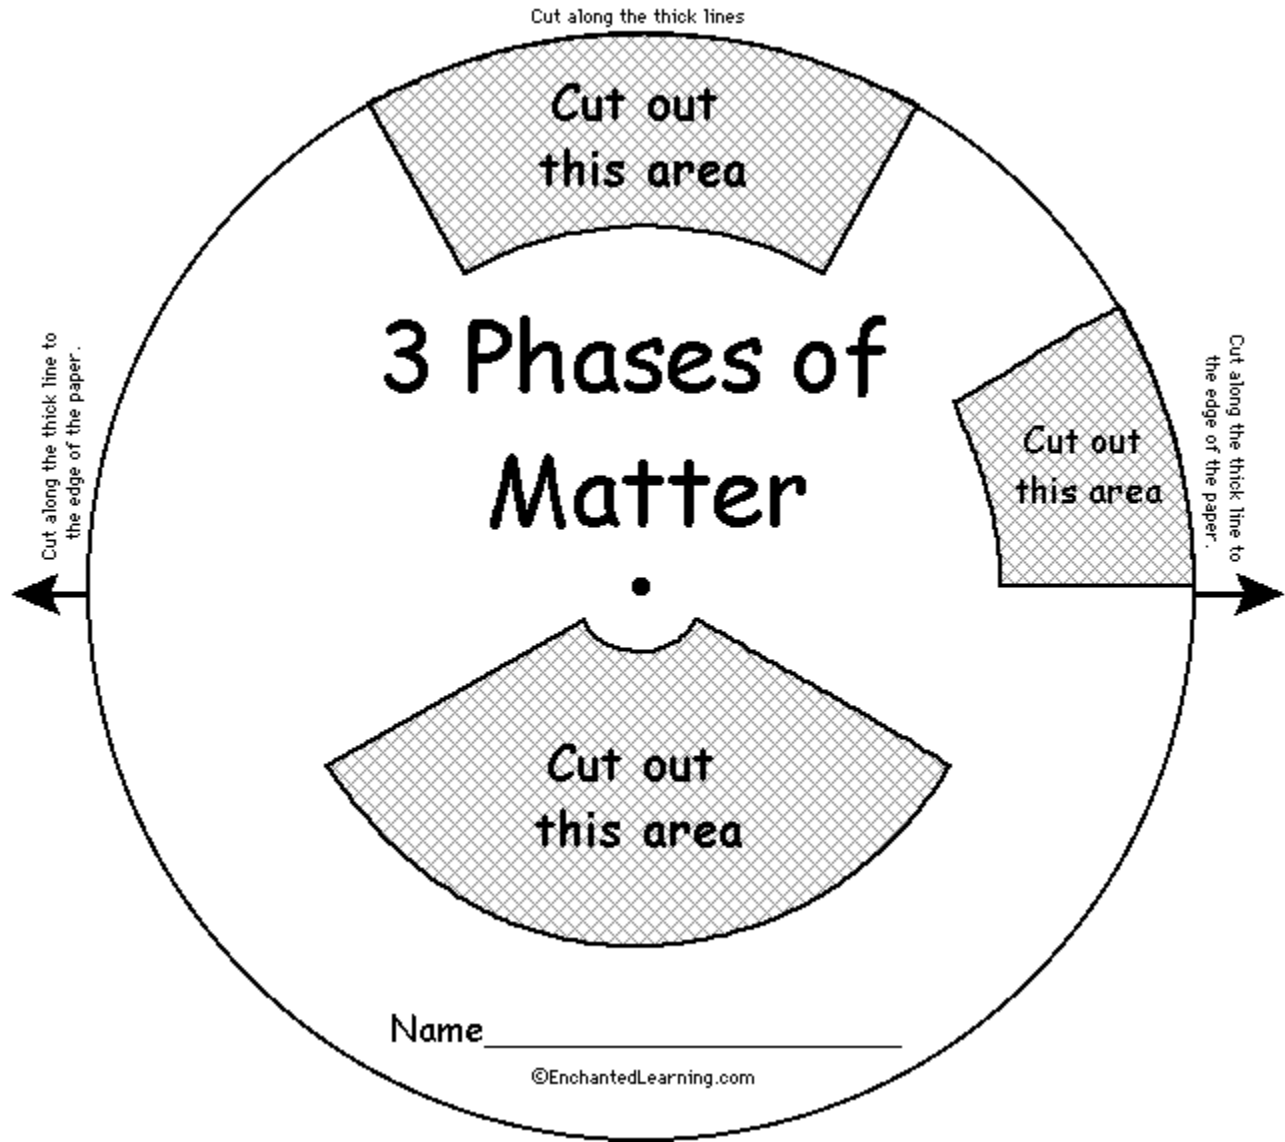

This is the bottom of the Phases of Matter wheel. Cut along the outside of the wheel.

On the other page of this printout (which will be the top page), cut out along the thick black lines (cut along the top half of the wheel and then out to the two side edges of the paper). Then cut out the cross-hatched areas.

Attach this wheel to the [top page](#) with a metal brad through the centers of the two wheels. The bottom wheel is slightly larger than the top wheel to help in spinning the wheel.

Phases of Matter Wheel Top

Write the 3 phases of matter on the wheel and one example of each.

1. _____, _____
2. _____, _____
3. _____, _____
